Improving irrigation techniqus help farmers

online
volunteering
provides
guidance to
farmer

Bank are giving less priority to farmer

A farmer uses 75% of his water to carry out irregation

Pesticides are sprayed to protect the crops

Asia, china and japan have better irrigation techniques in the world

Drip irrigation is most expensive irrigation

Punjab as better irrigation techniques in India

INDIA AGRI CULTURE CROP

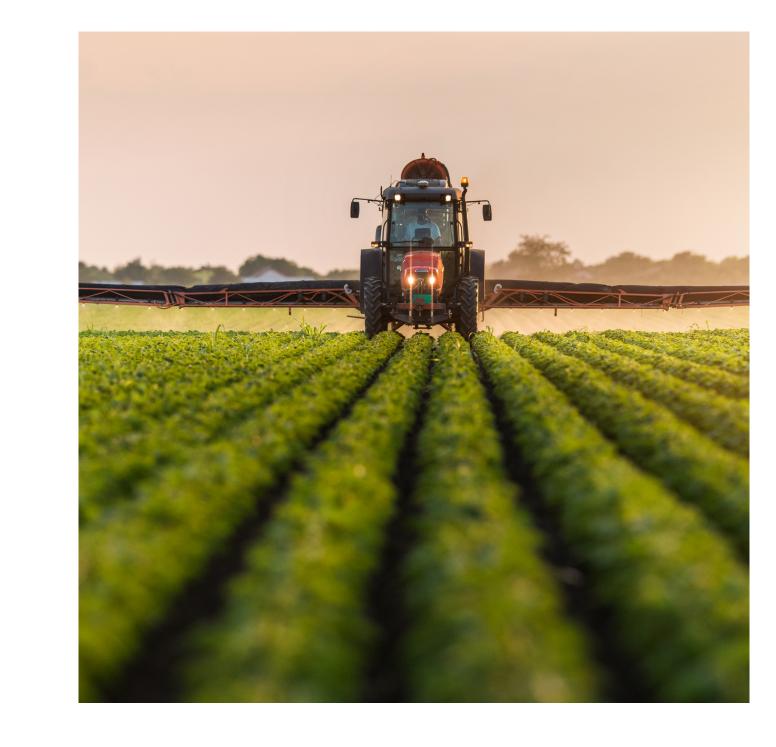

Irrigation techniques should be improved

Apply for loans to meet their farming needs

Flood irregation needs more water

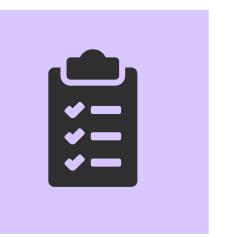

Seek financial support from goverment

May changed profession to cities

See an example

Manure is added to the soil

Does

What behavior have we observed? What can we imagine them doing?

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?
